ABOUT ME

I am a React.js Developer, I seek to work as frontend Developer to further my knowledge in the IT domain and utilize my skills.

PROJECTS

Projects :

Company Review Rating

- Created a company review platform allowing user submissions using React.js, JavaScript, HTML, CSS. Integrated secure login-logout, Users can add companies, see the company details, and give reviews to companies. , managed with Git/GitHub.

Blog Application

- Developed a responsive Blog web application to see the trending blogs application. User can add the blogs, User see the List of blogs and get the details of specific Blog. User can also add comments on the Blog. Utilized React.js, HTML, CSS for frontend, implemented RESTful APIs for backend.

TrendyNews

- TrendyNews is a responsive React.js app providing real-time global news through the News API. It supports keyword searches and category browsing (Sports, Politics, Entertainment, Health, Fitness). The intuitive interface displays news in cards with images, headlines, and a "Read More" link, offering a streamlined way to stay informed.

STRENGTHS

- My strength are I am a good team player , problem solver , and Honest person .

ACHIEVEMENT

- Participated in school long jump and cricket competitions, earning a trophy for outstanding performance.
